Benefits the State.

The State of Wisconsin, through its land department, has finally secured the concession from the United States that it (the state) is the bonified owner of the swamp lands and the sixteenth sections in all of the Indian Reservations where the date of the organization of the State of Wisconsin antedates the time the treaties were made with the different Indian tribes; and Wisconsin, through its land department, has commenced proceedings against the Government to collect for all pine and other valuable timber and property that has been converted to the use of the Government from such lands. The first case to come up was the seizure of some 15 million feet of logs cut by the Menominee Indians on the Menominee reservation at Keshena in Shawano county, and banked in the Oconto river which were sold by the Indian department to Perry Low & Co., and afterward transferred to Seymour Hollister, of Oshkosh, Wis. The logs as a whole were sold by the State and bonded by Hollister in the sum of \$500,000. This necessitated the examination of the lands by experts, and E. S. Shepard of Rhinelander was selected by the state to look after its interests. A party consisting of several U. S. special agents and the Indian department have just completed the surveys and sealing of what timber was cut in the season of 1897-8 which went into the Hollister logs, and found that 1,041,500 feet had been cut last winter, for which an agreement was arrived at under which the state is to receive at least \$5.00 per M. for the timber, which is a pretty fair price to establish as a precedent and basis for settlement of all trespass on such lands where the quality and size averages about the same, and which will amount, in all probability, to fifty million feet on all of the reservations so affected, and will net the state a snug little sum.

The state has finally woke up to the fact that she has been negligent in securing the best results from her public lands, and it redounds to the credit of the present administration of Wisconsin. The disposing of the pine on the State Park lands was a master stroke, as it saved much money and put it into the treasury for pine standing on the State Park lands that was constantly being destroyed by fires and windfall also the flooding of such lands at intervals by the reservoir dams that flow back for miles and cover the low lands in the Park, most of which is the water of State Park lands, the pine standing on islands and margins of streams. Trespassing has been also very expensive to prevent, as every log driver who needs some boom timbers to boom his logs across the many lakes through which the streams run, takes the timber from the most convenient place—any where he can find it, and don't bring it back; and the next drive that comes along repeats the dose and as only a small amount is taken at a time and by so many different persons it is next to impossible to locate the guilty persons, hence the extra expense. This pine on the State Park was sold at public sale at Rhinelander and brought all it was worth, and the state realized over \$100,000 and now the private owners have the care of it and stand the profit and loss, but are in a better position to protect them together with their other holdings than the state possibly could.

These are the few benefits Wisconsin enjoys by having a practical man in the chief interests of industry for Governor, who handles these interests just as economically as would a private corporation, he being a practical lumberman himself.

Sales of Pine Land.

E. S. Shepard this week sold a tract of pine to Langley & Alderson, situated on the Hazelhurst & South Eastern Railroad, for \$10,000. The tract contained 2,455,000 feet, according to Shepard's estimate, which was verified by Geo. Langley before the purchase of the land by his firm, which practically sets at rest the controversy over the amount of timber contained thereon, as no one pretends to dispute Langley's estimates. Three different estimators had at different times estimated it at less than one-half the above amount, but now admit that Shep. was right.

Mr. Shepard also lately sold to J. D. Day a tract of pine in Section 19, Town 27, Range 11 east, on the Soo line east of Pennington, which will be logged by Joe Nathan and manufactured at the Brown-Robbins Lumber Co's mill in this city.

Death of H. C. Hetzel.

Hon. H. C. Hetzel, of Merrill, died suddenly at Minocqua last Thursday while attending to legal business. He was apparently in the best of health when he left Merrill Wednesday morning. He went word to his son shortly after arriving at Minocqua and wanted his fishing tackle sent up. The next word received was in the shape of a telegram announcing his death. Heart trouble was evidently the cause. Mr. Hetzel was one of the foremost and best known attorneys in the state. He was prominently connected with noted criminal cases and established an enviable reputation as a prosecuting attorney.

His untimely taking away in the zenith of his strength in his profession was a heavy blow to his friends in this city. Among those who attended the funeral services at Merrill Sunday were W. L. Beers, E. S. Shepard and Prescott Calkins. The services were held from the residence and were in charge of the Masonic order. The high regard which all held for the dead man and the sorrow that filled their hearts was strongly evidenced by the stillness which prevailed during the march to the cemetery. Although the P. & A. M., I. O. O. F. and other organizations were in line there was no talking, all thought being centered upon the man being taken to his last resting place.

Many of the circumstances connected with the burial were most impressive and will long be remembered.

Tracked with Bloodhounds.

John McArthur, an ex-policeman, came up from Antigo Sunday with two bloodhounds which he took with him to Brantwood, to track a murderer who stabbed a man near that station Sunday, July 5. The murdered man, Charles Hendrickson, was the father of a young lad whom he was desirous of associating with a young gentleman friend of his. The man who did the stabbing, Charles Dornham, wanted to go with the girl himself but the father would not have it and forbade the fellow from having anything to do with her. This, appears, furiously angered the man, who upon meeting the girl's father, stabbed him repeatedly, severing two ribs and perforating the heart and lungs. After committing the crime the murderer started on the run for the woods and eluded all attempts at capture.

Although evidences of the murder were a week old when the hounds arrived they took up the scent immediately upon being piloted to the scene of the crime and followed the murderer's tracks to a point near the "Soo" track, where he had evidently boarded the train. A conductor of an east bound train stated that he took a man on near the point mentioned. Every effort is being made to effect his capture.

The dogs' owner received \$125.00 for their work.

Summer Institute.

The Rhinelander Summer Institute will be held at Rhinelander, Wis., July 11 to August 12. County Supt. F. M. Mason is in charge and Supt. F. S. Iyer, of Rhinelander, is the leading instructor. Prof. C. O. Marsh, of Antigo and A. B. West, of Tomahawk, are also instructors. County Superintendent Mason is one of the most active and efficient superintendents in the state and F. S. Iyer is leading his corps of teachers into the new lines of study that are so full of promise of improvement in the purpose and method of school instruction.—Public School Journal, Burlington, Ill.

A Good Company Coming.

The management of the Grand Opera House has succeeded in booking the famous "Way Down South" Co. for one night, Friday, July 15. This will be a treat to all theatre goers. Many People See the Circus.

The managers of Lemen Bros.' circus were well pleased with the patronage they received in this city Tuesday. The afternoon performance was given to a full tent, nearly all the seats being occupied. The high jump which preceded the main performance was a thrilling spectacle. The clouds of dust which filled the tent after the horses entered the ring put a big damper on a full enjoyment of the program. No provisions had been made to abate the nuisance and at times the rings were almost invisible. Three big elephants, a large cage of lions, the kangaroo and elk were drawing features, the elephant Raphael being a monster animal. The ring show was fully up to the average and frequent applause greeted the tumbler.

The circus was conducted well, the management not permitting the shell game and Madrid fakirs to operate with them.

The One Touch of Nature.

In the amusement line, popular prices is the one touch of nature that makes all classes kin. That is the motto of Ferris' Comedians who begin a six light engagement at the Grand Opera House next Monday night will draw an enormous crowd to see them every night. They do not play drama with blood curdling plots or worry you with the troubles of some stage creation, but promise to amuse with pure and wholesome comedy and exceptionally clever specialties as you have never seen even by the best and highest priced organizations visiting this city. They present musical farce comedies only, and their opening bill alone abounds in 46 musical numbers and 22 specialties. Prices, 10, 20 and 30 cents. Ladies free Monday night only if accompanied by the holder of a paid 30 cent ticket. Secure tickets at once.—At the Grand commencing, Monday, July 18.

\$200.00 Stakes.

R. L. Darrow, proprietor of the Darrow Summer Resort, at Minocqua, was in Rhinelander Tuesday to complete arrangements for the wrestling match to take place here, at the Grand Opera House Saturday, July 16.

The match is the result of a challenge issued by Ely Hamblin, of Minocqua, to D. A. McMillan, of this city, that the big wrestler cannot throw the stocky little man from Vilas county five times in one hour, the struggle and double Nelson holds being barred.

Hamblin's challenge, which was published in this paper about three weeks ago, was immediately accepted by McMillan and a meeting was arranged for Tuesday between the backers of the two men who are to wager \$200.00 a side and more if they wish on the outcome. Mr. Darrow acted for Hamblin and F. D. Crocker for McMillan.

Each backer deposited \$100.00 forfeit that the bets be made and the match off as stated. The money is deposited in the First National Bank and will be forfeited by the party failing to deposit the balance of the wager at four o'clock Saturday afternoon, the day of the match.

There will be no fooling in this contest. Mr. Darrow stated that the matter of attendance was of minor importance to him. He said that he came down here to bet \$200.00 and more if necessary that McMillan will not throw his man five falls in an hour. He said he was confident that Hamblin will give a good account of himself.

Doors will be open at 5:30 and the match will commence at 9 or as soon as necessary preliminaries are gone through with. 25, 35 and 50 cents will be charged for admission.

Goodyear Camps Moved.

C. A. Goodyear has moved his camps from Sec. 14-17-5 E to Sec. 12 same town and range, and extended his railroad to that point, where he will cut about 20,000,000 feet, which will clean him up in Oneida county. Mr. Goodyear and Mr. Shepard will go to Vilas county August 1 and select a point to commence logging the big tract Shop bought for him last winter, so that when the Oneida county timber is cleaned up he will be in full operation in Vilas county, and the mill will not have to be shut down during the moving process.

New Firm.

Ed. Brazell has associated himself with D. K. Jeffris, and they will at once commence rebuilding the mill at Jeffris which was destroyed by fire some time ago. The mill will have a capacity of 25,000 feet per day and pine, hemlock and hardwood lumber will be manufactured. Mr. Brazell will have full charge of the plant, and will manage the putting in of logs.

Fair Pamphlet Will Soon Be Ready.

Secretary Rogers, of the Oneida County Agricultural Society, is busily engaged upon the third annual premium list of the society which will be out in a short time. Our business men should see that their stores are represented by advertisements in the book. Copies will be distributed throughout the county and several hundred will be sent outside. It is a good medium through which to reach the buying public and the space rates are very reasonable.

A Large Berry Crop.

There will be an immense blueberry crop in this section this year. Everywhere almost, the berries are to be seen and although the season is not quite at its best now a week will bring bushels of them into the local market. Red raspberries will also yield plentifully this year and large quantities will be picked hereabouts.

Persons troubled with diarrhoea.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale at Palace Drug Store.

A. W. TREVITT, Chairman of Cong. Com.

C. E. Estabrook, of Milwaukee, has announced himself as a gubernatorial candidate.

The German warships had better not try to "prevent" Dewey from shelling Manila. It is risky business to butt a locomotive off its own track.

Commodore Schley is receiving most of the credit for the great naval victory at Santiago which he is justly entitled to. If it had not been for him Cervera's fleet would have escaped.

The woman suffragists will have to drum up some of their blazing friends. The platform of the New York Prohibitionists, promulgated at their recent state convention, is said to contain no woman suffrage plank.

"I have got them and they will never get home," said Commodore Schley on the 29th of May, when he discovered the Spanish fleet in Santiago harbor. His prophecy came true and the Commodore took a very important part in retaining them.

Two of the Iowa Republican congressional conventions have declared in favor of doubling the pay of private soldiers during the present war. This proposition will no doubt meet with favor in congress if the war should prove to be a short one.

John E. Shirk, editor of the Glenwood, (Wis.) Tribune and formerly editor and publisher of the Tomahawk at Tomahawk City, committed suicide at his home in Glenwood last week. He cut his throat with a jack-knife. He had been prostrated with heat two days before the deed and was supposed to have been out of his head. Mr. Shirk was a bright and capable newspaper man.

The Rhinelander Company.

in the Rhinelander Company in the Wisconsin National Guard. As required by law he will be instructed to give ten days' notice of the date set for the inspection and muster. A copy of the Laws and Regulations and proper blanks and instructions will be forwarded to you at once.

Respectfully, C. R. BOARDMAN, Adjutant General.

War Telegrams.

Specials to THE NEW NORTH.

Washington, July 10:—Gen. Alger received a dispatch this morning signed Shafter, saying a letter was received from Toral this afternoon declining unconditional surrender. Bombardment by land and sea commenced at 4 this afternoon, terrible fighting.

LATER DISPATCH.—Spanish soldiers ready to flee during bombardment; have looted every house in Santiago, Cuban and Spanish alike. The enemy opened fire at 4 p. m. with light guns which were soon silenced, Americans turning on siege mortars. No further details.

It is now positively known that Pando's six thousand reinforcements reached Santiago, but Pando himself is in Havana.

Washington, July 10:—Gen. Linares agrees to surrender. If his men are allowed to leave, Shafter refuses proposition and demands unconditional surrender. Truce extended until Sunday noon. Linares still without advice from Blanco, Madrid, as to how to act. Gen. Alger says truce will be up Sunday noon, then nothing will be left but bombardment or surrender. Charleston, transports Yale and Columbia with Miles and seventeen hundred men on board, left to reinforce Shafter. It is intimated that destination is Porto Rico.

A Madrid dispatch says there is talk of considering a ten days' armistice to facilitate peace negotiations.

Washington July 11.—Shafter reports fighting confined to navy and artillery, but expects to bring on general engagement this afternoon. Two killed and four wounded in yesterday's battle. Later dispatches state that Shafter continues pounding rear forts to clear the way for Sampson to enter harbor and shell city.

Camara's whole fleet has left port. Said this afternoon to be bound home.

Washington, July 12.—Dispatches from London say: In consequence of irreconcilable differences of opinion, the question of initiating peace negotiations causes Spanish Ministry to resign. Military party control new cabinet.

Sampson was to attempt to enter harbor yesterday, but will enter it today. Gen. Miles arrived at Santiago, and is consulting with Shafter.

Washington, July 12, 1:20 p. m.—Bombardment of Santiago still raging. Principal buildings reduced to dust. Out of 106 shots fired by Sampson 100 took effect, causing terrible destruction to life and property. In fact the slaughter was so great that Shafter sent word begging them to surrender before the entire city and army were destroyed. Spaniards fighting like demons. Only 200 yards separate the two armies.

Washington, July 12, 4:10 p. m.—A long cipher dispatch was received at the war department this afternoon from Shafter. As soon as translated Corbin carried it to the President. War officials will make no statement regarding contents. It is believed the dispatch relates to the probable surrender of Santiago, as truce flag is flying there and terms are being negotiated.

Officials in Washington are now holding conference over dispatch which regards surrender. It is thought many of the Spanish soldiers left before Shafter got the north side of the city surrounded.

Washington, July 13, 3:46 p. m.—Shafter just telegraphs truce extended until noon tomorrow. Shafter and Toral now consulting surrender. Toral says he cannot surrender without authority from his Government. Toral says he has privilege withdrawing troops, and surrendering harbor ports in Eastern portion of Cuba. Shafter says bombardment will positively begin at noon tomorrow unless unconditional surrender is made. Alger telegraphs Shafter that these must be the only terms.

Silvery, July 13, 1898.—The American lines are greatly strengthened; impossible for aid or food to reach the city. The Spanish General, Maria, is reported with six thousand men to reinforce Toral, but he will never reach Santiago. Gen. Shafter is looking for him, and the Cubans and Americans hold the road along which Maria will have to pass to reach Santiago. Refugees are still leaving the city. Many women and children are in almost pitiable condition, without food or shelter. They are begging our soldiers for rations, but soldiers are short owing to the muddy roads from their position to the coast.

Washington, July 12, 8:10 a. m.—Watson's departure is indefinitely

postponed; probably will not go to Spain at all. Gen. Miles assumes command of army at Santiago; says he will take the city in three days. Spanish government would make overtures of peace but Blanco says people of Cuba will never submit to it.

Madrid, July 13.—Dewey took five hundred Spanish prisoners; in fact the entire garrison on Grande Island, San Juan, an important Spanish stronghold. General and Admiral boarded garrison and they ran up a white flag. The taking of San Juan is very important, as it frustrates some of Germany's plans.

Directions For Procedure Under the Census Law.

HEADQUARTERS REPUBLICAN STATE CENTRAL COMMITTEE.

Milwaukee, July 2, 1898.

In accordance with a suggestion made at the late meeting of the State Central Committee that proper legal opinion be obtained as to the application of the new census law to the holding of caucuses for the coming general election, outside of Milwaukee county, we are advised by First Assistant Attorney General J. L. DeBalt, that the law, in general elections, outside of Milwaukee County and in the absence of a vote to adopt the same, is only applicable to incorporated cities in Wisconsin, and not to unincorporated towns and villages. Therefore, the caucuses in the towns and villages will be conducted in the same manner as heretofore.

It is his opinion that the County Committee shall act in all general elections, having charge of all the details thereof, and in accordance with this ruling the first duty of the County Committee will be to appoint three electors in each census district in each incorporated city in the county (if it has not already been done), who shall act as inspectors of the caucuses, as provided in section 5, chapter 512, laws of 1897, and each elector so appointed must, within ten days from the time of his appointment, file with the County Clerk oath or affirmation as required by this section. The County Committee may, at any time prior to the opening of the caucuses, remove any inspector so appointed and appoint another in his place who shall qualify in like manner. In case any inspector shall fail to appear at the time fixed for opening such caucuses, the inspector or inspectors present, shall appoint some inspector, resident of the census district in which such caucuses is held, in the place of such absent inspector, who shall administer to such person the oath provided for in this act. The chairman, secretary and three inspectors shall be a canvassing board, who shall faithfully, honestly and correctly canvass all votes cast at the caucuses, and in every way comply with the provisions of this act.

The census law of 1897 provides for preliminary meetings to be held prior to the holding of the caucuses, the object of such meetings being to propose names of persons who may be voted for at the caucuses to represent the census district at the county convention, or in case there is more than one assembly district in the county, at the assembly district convention. The method of procedure in calling and holding these preliminary meetings is as follows: As provided in section 6, chapter 512, laws of 1897, the County Committee shall issue a call for preliminary meetings of Republican electors to be held in each census district in every incorporated city in the county four days prior to the caucuses. At least ten days' notice shall be given for the holding of such preliminary meetings.

The chairman of the ward, or in the absence of such chairman, a census inspector shall open the preliminary meeting. After the election of a chairman and secretary of the preliminary meeting, who by virtue of such election shall also act as chairman and secretary of the caucuses, the chairman of said meeting shall declare nominations open for delegates to the county convention, (or assembly district convention in case the county contains more than one assembly district) to elect delegates to the state convention, as given in the call of the County Committee; whereupon nominations may be offered by any Republican elector present.

The County Committee is also required to furnish for each census district, blank ballots of uniform size and color for the use of the secretary of the preliminary meeting. As the names of delegates are proposed they shall be written upon the ballots by the secretary and placed in a ballot box. The chairman, before entertaining a motion "that nominations may be closed," shall first put the question to the meeting, repeating the same twice: "Are there any further nominations?" Such action must be first taken and every opportunity given electors to propose names before motion to declare nominations closed can be entertained or voted upon by the meeting. The nominations having been closed the meeting shall elect two tellers, whose duty it shall be to withdraw, one by one, the ballots placed in the ballot box (after the same has been thoroughly shaken), and the chairman and secretary of the meeting shall certify the names proposed for delegates in the order in which the same have been withdrawn and announced by the tellers to the County Committee.

The chairman of the preliminary meeting shall then read the call for the caucuses, stating the time and place of holding the same; that the caucuses will be open at four o'clock p. m., and close at eight o'clock p. m. (as required by law), and the number of delegates to be chosen; that the County Committee will have tickets printed for the caucuses, containing all the names proposed, the voter at the caucuses to place a cross (X) after the name of each delegate voted for; that no other but the official ticket will be received at the caucuses, and that all official tickets will be placed in the booth or building in which the caucuses is held, whereupon the preliminary meeting shall stand adjourned.

The County Committee, immediately upon receipt of the names of proposed delegates from each census district, shall proceed to have printed

an official census ticket (see, S. Chap. 512, laws of 1897) which shall contain the official imprint of the County Committee, the name of the party, and the census district in which said caucuses is held, and shall contain the names of all delegates proposed at the preliminary meeting. No other ballot shall be received or counted at the caucuses. The County Committee shall have prepared and delivered to the census inspectors, a sufficient number of official census tickets in the original sealed packages, and at the opening of the caucuses the packages will be opened and the tickets conveniently placed for the use of the voters, but no distribution of such census tickets shall be allowed outside of the place where the caucuses is held.

The Board of Registry of each election precinct shall, two days before the day fixed for the holding of the caucuses, deliver to the chairman of the County Committee six copies of the printed registry list of electors. Failure to provide these lists operates to forfeit all compensation provided by law of every member of such board. (See sec. 7, ch. 512, laws of 1897.)

After such registry lists have been delivered to the chairman of the County Committee, he shall deliver the same to the census officers of the respective districts in each city. Only voters whose names appear on such registry list shall be allowed to cast their vote at said caucuses, except in case it is shown by affidavit that the elector is a qualified voter of the census district; which affidavit must be substantiated by the affidavit of two freeholders, electors in such census district, corroborating all the material statements in his affidavit.

(See, S. Ch. 512, laws of 1897.) The chairman selected at the preliminary meeting shall, upon the day fixed in the call, open the caucuses (at 4 o'clock p. m.) in the booth, and if no booth exists in the census district, in the building which the County Committee shall have designated to be used for holding the caucuses. The chairman and secretary together with the census inspectors shall act as officers of the caucuses. In case the chairman is absent, any census inspector may open the caucuses, and the electors present shall elect a new chairman, and in the absence of the secretary a new secretary. (Persons whose names appear on the census ticket as candidates for delegates may act as census officers, but no other person whose name appears on the census ticket may act as census officer or be permitted to vote, until after the close of the caucuses.) The census tickets shall be placed in charge of the secretary of the caucuses, who shall deliver to each elector entitled to vote, as he enters the booth or place where the caucuses is held, one ballot, and no more than one ballot shall be furnished to any one elector unless the elector returns the one first furnished as having been erroneously prepared or spoiled by accident or mistake, but no voter shall receive to exceed three ballots in all. Ballots containing more names crossed for delegates than the district is entitled to shall be void and shall not be counted.

Any person voting or offering to vote at a caucuses, when not a qualified elector of the census district, is amenable to fine and imprisonment.

The census inspectors shall act as tellers of the caucuses, receive the votes of all the electors of the party of the caucuses district, and all electors who voted the Republican ticket at the last general election shall be entitled to vote. An elector, whose right to vote shall be challenged by any of the census officers, shall not be permitted to vote unless he shall subscribe and file with such census officers, an oath or affirmation that he is a resident of the census district, is a qualified elector and voted for the regular Republican candidates at the preceding general election, which affidavit must be substantiated by the affidavit of two freeholders, electors in such census district, in so far that they know the challenged voter to be a resident and elector of the census district, and they have reason to believe that the statements made by such challenged voter in his affidavit are true and correct.

Immediately after the close of the caucuses (at eight o'clock p. m.), the canvassing board shall count every official ballot cast, and verify such canvass in the presence of all persons desiring to attend, whose names appear on the ballot voted at such caucuses, or one authorized agent for each such person, and immediately when the result is determined, announce the same in a loud voice. All the ballots or tickets cast at such caucuses shall then be burned. Verified and certified returns shall immediately be sent to the County Committee, together with the checked registry list used, and affidavits received at such caucuses.

Section 4, chapter 512, laws of 1897, makes it the duty of the city to cause booths to be constructed and erected at such place and time as the caucuses are designated to be held, and to furnish the necessary furniture, ballot boxes, heat and light; provided, that in all cities where provision for election booths is not made by law, the caucuses held under the provisions of this act shall be in some suitable building in each census district to be designated by the County Committee and located as centrally as may be with regard to the convenience of all electors in such census district.

In brief, the county or assembly district conventions shall be called on a notice of not less than four weeks prior to August 15th, the date for holding the state convention. Caucuses for electing delegates to the county or assembly district conventions must be called on a notice of not less than ten days.

Preliminary meetings for proposing names of delegates to be voted for at the caucuses must be held four days before said caucuses, and ten days' notice should be given of the holding of such preliminary meetings.

It is suggested that the work of the State Central Committee, in preparing the roll for the state convention, would be greatly facilitated if credentials of delegates to the state convention should reach them not later than the 15th of August.

Lack of space prevents us from giving the War Song Concert, which took place at the Opera House last evening, the detailed notice it deserves. To condense an expression of opinion on the meritorious features we will say that the concert was thoroughly enjoyed by all. Especially pleasing were the numbers rendered by the male quartette, and the American Hymn by the ladies double quartette. The solos, and the drills by the little boys and girls came in for their share of applause. St. Augustine's church, for whose benefit the concert was given, realized well from the entertainment.

The "New Idea" Wagon.

There is nothing so much needed on the farm as a Low-Down, Broad Tire, Wide Platform wagon. It is used more than all other implements put together. It is just the thing for hauling corn stalks, tools, manure, grain or anything. It pulls easily, because the wide tires roll over the surface and cut no ruts that drain off the fertilizer or juices of the manure. The low wheel saves half the lifting, and the Top Rail too. Such a wagon saves the wages of one man in loading. It will last a generation and you will have no tire setting or repair bills. It does away with strained backs from lifting over high wheels. It is a Road Maker and not a Road Breaker. It will not upset on side hills and it is great on marshes.

These wagons have wood axles 5 1/2" capacity, two tons; weight, 425 pounds; wide or narrow track; bolsters only 19 inches from ground; fitted with the best steel wheels on the market, 24 inch high front and 20 inch rear, with 4 inch tires. The skins are made of the best iron and are very smooth. The hubs have two deep hollow circles for holding the grease or oil. These are by far the Cheapest and Best Farm Wagons ever made.
